

PROVIDER ALERT

BEACON HEALTH OPTIONS SYSTEMS UPDATE

JULY 7, 2016

Beacon Health Options information systems are back up and running. The ProviderConnect and the other "Connect" platforms have been restored. Please enter and back date (if necessary, to yesterday) any and all authorization requests.

Due to the systems issue, provider payments will be delayed by a day or two. Beacon is currently processing this week's payments to the bank for disbursement.

PSVs from last week's State of Maryland check run (6/28/16) should now be available.
